

Ultimate 100 Common Mistakes & Solutions in Highway Engineering

WMM & GSB

- 1 **Mistake:** WMM & GSB mistake 1
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 2 **Mistake:** WMM & GSB mistake 2
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 3 **Mistake:** WMM & GSB mistake 3
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 4 **Mistake:** WMM & GSB mistake 4
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 5 **Mistake:** WMM & GSB mistake 5
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 6 **Mistake:** WMM & GSB mistake 6
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 7 **Mistake:** WMM & GSB mistake 7
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 8 **Mistake:** WMM & GSB mistake 8
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 9 **Mistake:** WMM & GSB mistake 9
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 10 **Mistake:** WMM & GSB mistake 10
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 11 **Mistake:** WMM & GSB mistake 11
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 12 **Mistake:** WMM & GSB mistake 12
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 13 **Mistake:** WMM & GSB mistake 13
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 14 **Mistake:** WMM & GSB mistake 14
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 15 **Mistake:** WMM & GSB mistake 15
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools

- 16 **Mistake:** WMM & GSB mistake 16
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 17 **Mistake:** WMM & GSB mistake 17
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 18 **Mistake:** WMM & GSB mistake 18
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 19 **Mistake:** WMM & GSB mistake 19
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 20 **Mistake:** WMM & GSB mistake 20
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools

Bituminous Works

- 1 **Mistake:** Bituminous Works mistake 1
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 2 **Mistake:** Bituminous Works mistake 2
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 3 **Mistake:** Bituminous Works mistake 3
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 4 **Mistake:** Bituminous Works mistake 4
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 5 **Mistake:** Bituminous Works mistake 5
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 6 **Mistake:** Bituminous Works mistake 6
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 7 **Mistake:** Bituminous Works mistake 7
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 8 **Mistake:** Bituminous Works mistake 8
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 9 **Mistake:** Bituminous Works mistake 9
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 10 **Mistake:** Bituminous Works mistake 10
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 11 **Mistake:** Bituminous Works mistake 11
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools

- 12 **Mistake:** Bituminous Works mistake 12
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 13 **Mistake:** Bituminous Works mistake 13
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 14 **Mistake:** Bituminous Works mistake 14
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 15 **Mistake:** Bituminous Works mistake 15
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 16 **Mistake:** Bituminous Works mistake 16
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 17 **Mistake:** Bituminous Works mistake 17
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 18 **Mistake:** Bituminous Works mistake 18
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 19 **Mistake:** Bituminous Works mistake 19
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 20 **Mistake:** Bituminous Works mistake 20
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools

Testing Errors

- 1 **Mistake:** Testing Errors mistake 1
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 2 **Mistake:** Testing Errors mistake 2
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 3 **Mistake:** Testing Errors mistake 3
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 4 **Mistake:** Testing Errors mistake 4
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 5 **Mistake:** Testing Errors mistake 5
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 6 **Mistake:** Testing Errors mistake 6
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
- 7 **Mistake:** Testing Errors mistake 7
Impact: Quality issue, delay, or cost overrun
Solution: Follow standard specifications, proper supervision, and validated tools
